Dear Orpheus Friend/Supporter:

The Orpheus Hellenic Folklore Society (OHFS) proudly celebrates its 30th year anniversary. This important milestone will be celebrated with a unique event on Saturday, November 23, 2019, at the Arlington International Park in Arlington Heights, IL. This event will serve not only as a memorable celebration of the accomplishments and contributions of Orpheus to the Greek-American community but will also be a major fundraising effort to keep the programs sustained for many years to come.

It is a fact that the cultural programs at Orpheus have become one of the best Greek-American success stories in Chicagoland and beyond. They are the result of the dedication, pride, enthusiasm, character, and collaboration demonstrated by all involved.

We are providing an RSVP form for all Orpheus 30th event guests to assist in monitoring and planning your reservations for that night. Please keep track of the reservations made by your friends and family so that the appropriate seating arrangements can be provided.

The program for the 30th year event will include dance and music performances, live Greek traditional and popular music, buffet dinner, Greek desserts, audiovisual elements and much more for all to enjoy.

You can help support this success story reach new heights by promoting RSVP's for the event to family and friends. We are encouraging that each family should be able to bring at least 10 guests at the event and we are certain that with your help, we can easily reach or surpass that goal through our immediate circle of family and friends. This event is fast approaching so we encourage you to start spreading the word and selling your tickets as soon as you can!

We are excited about the many ways our programs can expand and grow, but we can only do that with your support. Yearly registration fees and other monetary funds cannot adequately cover our expenses.

Participation at the Hellenic Dance Festival competition, costume purchases and maintenance, attendance at workshops, hosting guest instructors and musicians, technical support and equipment, are just some of the integral elements needed for our programs that can only be funded through separate giving initiatives that are associated with the 30th Anniversary event.

We need your help and ask that you continue to invest in a program that has produced so many amazing results and touched so many lives in the last 30 years!

Thank you for your consideration and support!

The Orpheus 30th Anniversary Committee

P.S. Enclosed along with your RSVP form and an instruction sheet explaining how reservations must be managed. We are handling this task differently from past events. Please take the time to read the enclosure.
